---

## SUMMARY

Software engineer with 4+ years of experience shipping cross-platform mobile and web products to production, with a speciality in mobile development. Proficient in Flutter, Kotlin, Swift, and modern JavaScript frameworks (Vue.js, Next.js). Works end-to-end — from UI design in Figma through API integration to App Store deployment. Currently building AI-integrated research platforms for crypto and equity markets.

---

## SKILLS

**Mobile** Flutter · Kotlin (Android) · Swift (iOS)  
**Frontend** Vue.js · Next.js · TypeScript · Tailwind CSS · HTML / CSS / Sass  
**Backend** Nest.js · REST APIs · Firebase  
**Languages** Dart · Kotlin · Swift · JavaScript · TypeScript  
**Design** Figma · Adobe XD  
**Tools** Git · GitHub · Claude AI

---

## EXPERIENCE

### CoinResearch.AI

Nov 2024 – Present

Software Engineer

- Building AI-powered crypto and stock research platforms (web, Android, iOS) from the ground up.
- Developing cross-platform mobile interfaces with Flutter and web UIs with Vue.js / Next.js.
- Integrating AI assistant features (Claude API) to surface actionable market insights for retail investors.
- Owning feature delivery end-to-end in a small product team — from spec to production release.

### Gak Gendut Lagi (GGL)

Feb 2023 – Aug 2024

Medior Mobile Developer (Feb 2024 – Aug 2024) · Junior Mobile Developer (Feb 2023 – Feb 2024)

- Shipped a Flutter-based health & fitness app to both the iOS App Store and Google Play from a single codebase.
- Promoted from Junior to Medior Mobile Developer within 12 months, based on feature delivery and code quality.
- Implemented pixel-perfect UI from Figma designs; contributed to interaction design decisions with the product team.
- Maintained the production app post-launch: triaged bugs, shipped hotfixes, and released incremental feature updates.

### PT Siberat Digital Logistik

Sep 2021 – Feb 2023

Software Engineer (Mobile)

- Developed SiBerat, a B2B logistics platform with separate vendor and driver apps published on Google Play.

- Built native Android features in Kotlin and cross-platform screens with Flutter across the logistics product suite.

## **PT Hedo Global Technology**

Feb 2021 – Sep 2021

Mobile Developer

- Contributed to Android and iOS feature development in a product team — first professional engineering role.

## **Loko**

— . —

Frontend Developer

- Built the company profile website for Loko, a digital transformation IT company, using Vue.js.
- Delivered a full product page showcasing services, products, and career opportunities at loko.co.id.

## **PROJECTS**

---

### **StockResearch**

Flutter · Web · Android · iOS

AI-powered equity research platform — natural-language stock analysis and market screening.

### **CoinResearch**

Flutter · Web · Android · iOS

Crypto research tool with integrated AI assistant; available on web, Google Play, and the App Store.

### **SiBerat**

Kotlin · Flutter

B2B logistics platform with separate vendor and driver apps; published on Google Play.

### **diBajolbae**

Kotlin · Flutter · Android · iOS

Fresh produce marketplace for the Palembang region — dual-sided apps for drivers and merchants with real-time order tracking and store management.

### **Loko**

Vue.js · Web

Company profile website for Loko, a digital transformation IT company — products, services, and careers at loko.co.id.

## **EDUCATION**

---

### **Bina Darma University**

2015 – 2020

Bachelor of Information Systems
